Foreword

"Without culture, and the relative freedom it implies, society, even when perfect, is but a jungle. This is why any authentic creation is a gift to the future." - A. Camus

I'm an enthusiastic and hands-on technical leader who strives to contribute to- or endorse best practices, innovative approaches and an Open mindset whenever possible. I'm a firm believer in the power of clear mission statements and principles to foster ownership, mutual aid and self improvement to ultimately create efficient organizations. In my spare time I'm a Clojure dedicated evangelist and trainer and enjoy organizing technical communities.

Professional aptitudes

Organizational

- Continuous delivery
- Scrum / Kanban / Spotify
- Software ALM

Programming

- Clojure / ClojureScript
- Java / Scala
- Javascript

Management

- Servant leadership
- Iterative, measurable strategies
- Hiring / Appraisals / PDP

Various tech

- Cloud infrastructure (AWS / GCloud)
- DevOps
- Distributed architectures
